

This document is my assessment of the functionality of the website, some parts will be related to design I am hoping these minor things can be fixed on Thursday (04/04/2019)

This is the API key for Mail Chimp: 4382520e190d3849c0024b8fb8ec8662-us20

Please add these to these to the icons on the website on the footer

Facebook: <https://www.facebook.com/islamicresourcehub>

Twitter: <https://twitter.com/IslamicRH>

Instagram: <https://www.instagram.com/islamicresourcehub/>

HOMEPAGE

- The Font size inside the search box should be smaller so that all the text can be viewed

RESOURCES PAGE

<https://www.islamicresourcehub.com/public/resources>

- Delete “have a new resource to share?”
- Have 20 resources per page

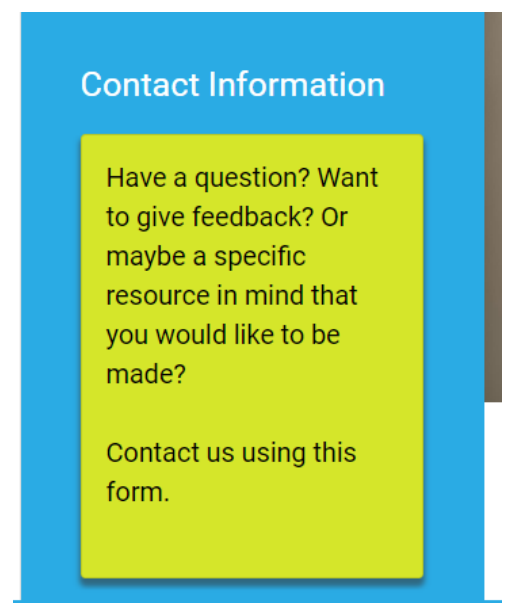

SUPPORT US PAGE

<https://www.islamicresourcehub.com/public/support-us>

- Spread the Word is not functioning at all, once users click on that a small pop up should appear with Facebook, Whatsapp, Twitter, Email, Instagram logos.
- Give montly donation and one off donation serves the same purpose currently, please change this to allow the monthly option to ensure that money deducted on a specific date chosen by the donor every month.

CONTACT US PAGE

No need for Green background, keep same as the blue Background.

RESOURCE VIEW PAGE

(EXAMPLE: <https://www.islamicresourcehub.com/public/resource/58>)

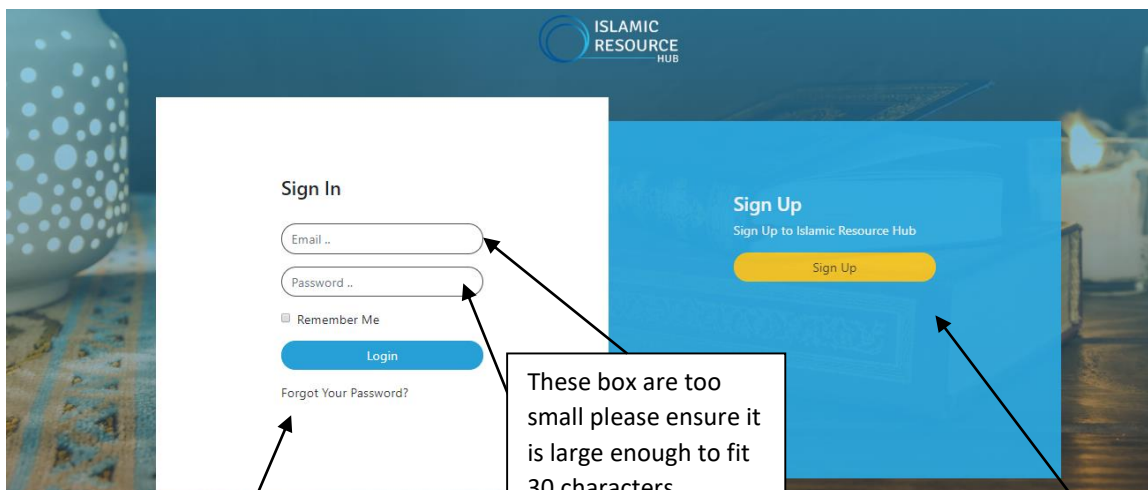

Users should be able to click on the name of the author which should take them to the page where they can see all the other resources published by the author. Also the profile will be apparent there too and also a tab wherein you can contact the author

This is not functioning

For some reason the page reloads when you click like or save for later, please allow it to be immediate as oppose to reloading again

Sign in and Sign Up Page

<https://www.islamicresourcehub.com/public/login>

This does not work it says server error when attempting to reset password

These box are too small please ensure it is large enough to fit 30 characters

Can user click on sign up without the page having to reload?

[Forgot Password](#)

Font should be slightly larger and should have links to terms and condition and privacy policy.

It should say "I agree to the website's [Terms & Conditions](#) and [Privacy Policy](#)"

UPLOADING A RESOURCE

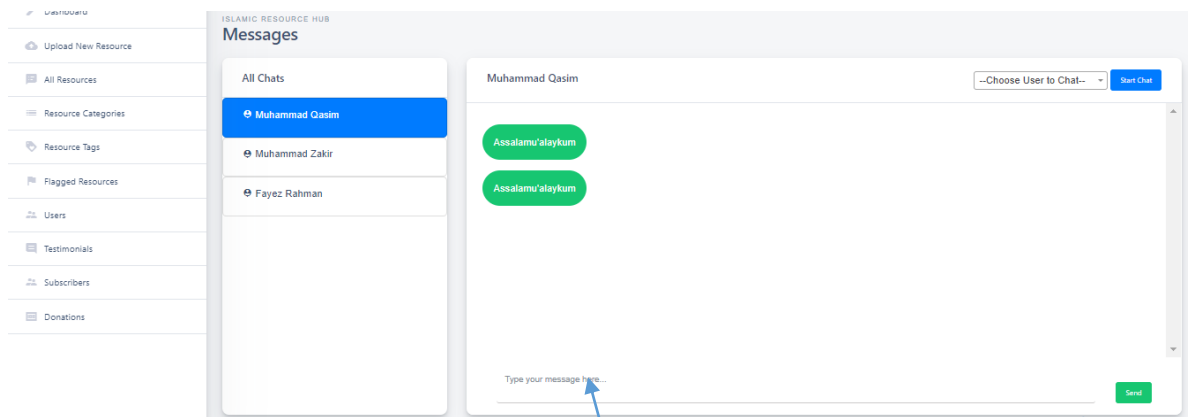

When the user clicks on publish the page should refresh and state the following: "Jazakallahu Khairan for sharing your resource, as part of quality control one of our team members will need to approve of your resource before going live."

DASHBOARD

When users sign in to dashboard they do not need to have access to the statistics only the admin should. With the admin view it should also include the country the visitors are from.

Please also include download history on the dashboard and "comments on my resource" with a link to the resource wherein the user can respond publicly to the comment.

I cannot respond to anyone who has messaged me

This is too small, please make it larger, also if there is a message between users then it should also be emailed to the users that a message was received. Is this possible?
